

Divesoft/CCR Liberty Repair/Maintenance and Service Request Form

Please complete, print and return this form with your device so we can expedite the repair process.

Instructions:

1. Complete all the requested information
2. Pack your unit securely in padded wrapping materials (for protection against shock) in a sturdy box sealed with tape. Include your proof of warranty or a copy of the original sales receipt if your device is still within the warranty period. If your device is out of warranty, you will receive a service/repair estimate indicating all predicted repair costs. Your written approval of the service estimate is required to begin with the device repairs.
3. Ship your device to Divesoft via the courier of your choice, but please choose a method that allows you to track the package for security reasons. Remember to insure the device for its full replacement value.
4. After we receive your device, we will perform a thorough inspection in order to provide you with a Service Estimate.
5. If the price of the Service is up to 50 EUR (excluding shipping costs), Divesoft will make the Service without approving the price. For prices over 50 EUR (excluding shipping costs), you will receive a Service Estimate at the email address you have listed below in the form that describes all of the work that is required, the cost (if no longer under warranty), and the approximate time it will take to repair your device.
6. Your approval of the Service Estimate is required to complete the device repairs. You may also refuse the Service Estimate and no service will be performed. We will return your device to you in the condition in which it was received.

Notes:
